Rebuilding "Old Ironsides."
The work of reconstructing the old
frigate Constitution, more familiarly
known as "Old Ironsides," has pro-
gressed so far that she is about ready
for the guns and which are to be ex-
act duplicates of those used a century
ago. When the system needs re-
building there is no better remedy for
the work than the famous Hostetter's
Stomach Bitters. It was first com-
pounded over a century ago, and on
account of its intrinsic merit has
grown in popularity until today it
stands first class. Be persuaded to
try a bottle the next time the appe-
tite is poor, nerves unstrung, bowels
constipated and sleep restless. It will
be sufficient to convince you of its
great curative powers. It also cures
and prevents dyspepsia, indigestion,
biliousness, sick headache, chills, etc.,
male etc.

For Sale—One Graphophone with
cover and record case for 36; horn and

ARIZONA TONG WAR

A Clash Between Societies in Arizona

IT MAY EXTEND HERE

Chinaman Suspected of Giving Away Secrets to An Inspector

Reports from Prescott state that a
long war between the Chinese in that
city is brewing and a visit of an im-
migration inspector to that city is
said to have added fuel to the flames,
which have been smoldering among
the Celestials for some time.
It will be recalled that about a year
ago two rival gangs of the Chinamen
in Prescott engaged in deadly warfare,
which threatened to extend to their
brother gangs in Tucson and Tomb-
stone in fact to become general
among the Chinamen throughout the
territory.
The latest difficulty in Prescott is
said to be the fact that some one tried
to burn down the laundry of Wa
Hing.
Wa Hing was suspected of giving
information to immigration officials
about Chinamen who had not the
Clock Gee necessary to remain in this
country.

Following the Flag

When our soldiers went to Cuba and
the Philippines, health was the most
important consideration. Willis T.
Morgan, retired Commissary Sergeant
U. S. A., of Rural Route 1, Concord
N. H., says: "I was two years in Cuba
and two years in the Philippines, and
being subject to colds, I took Dr. King's
New Discovery for Consumption,
which kept me in perfect health. And
now, in New Hampshire, we find it
the best medicine in the world for
coughs, colds, bronchial troubles and
all lung diseases. Guaranteed by all
druggists. Price 50c and \$1.00. Trial

John Noble, who has extensive inter-
ests in Phoenix, among other build-
ings being the large incomplete
Noble block, is believed to be in South

ported to have gone to the bad during
the recent financial slump, and just
what will become of his Phoenix build-
ings may be a question for his cred-
itors to answer, according to re-
ports.
An inch of snow fell at Nogales dur-
ing the storm last week.
Supervisor L. M. Hughes of Mari-

ANOTHER ARIZONA ROAD

A Transcontinental Line For the West

TRAVERSES ARIZONA

Hundred Million Subscribed to Build the New Line

A railroad "conjecture" sent out
from Fort Worth gives the Gould in-
terests under direction of A. J. Moffat
the credit of an intention to enter
the transcontinental railroad field with
a southern route. The dispatch as-
sent out from Fort Worth says the
line will be projected north from
Carlsbad, in Eddy county, New Mex-
ico. Other "conjectures" are to the
effect that this proposed line will be-
come finally a southern route across
both Arizona and New Mexico. The
Fort Worth dispatch says that D. J.
Moffat, the Denver railroad magnate,
backed by the Gould and Yankin in-
terests, will build the line. The nec-
essary funds—\$100,000,000—are said
to have been fully subscribed.

WORK HARDSHIP

Cities Are In a Bad Way

Imperial Valley people are much
inconvenienced by Judge Wellborn's
orders to the California Development
company to stop all flow into Salton
sea. Five towns are furnished light
and power by means of a small canal
which has its outlet into the Salton
sea. These cities are in darkness and
their industries are dead under the
court's order. It will take three
months to build a steam power plant
to take the place of the forbidden
water. The people are holding mass
meetings by candle light and are ask-
ing Judge Wellborn if the welfare
of five cities should not be considered
of greater importance than the inter-
ests of a submerged salt company,
which must remain inundated for
months to come, under the most fa-
vorable circumstances.—Yuma Exam-
iner.

ARIZONA GIRL IN PRISON

Serving Time In a Mexican City Jail

HAS RELATIONS HERE Found By An Arizona Ranger--She Asserts Her Innocence

A party of American tourists were
doing Juarez Tuesday and who visited
the Mexican jail, attempted to inter-
cede in behalf of the American girl,
Vivian Reel, and if possible secure
her release from prison. The girl,
who is serving a fourteen months sen-
tence for being implicated in a rob-
bery, told the women she was innocent
and was the victim of circumstances.
A lieutenant of the Arizona rangers,
who was in El Paso on business, also
became interested in the girl, having
discovered that her brother was work-
ing as a cowboy on his ranch. He re-
ported the matter to the American
consul in Juarez, informing him that
she was of good family and that her
brother and mother were respectable,
well to do people of Arizona. There is
nothing that can be done by the con-
sul as she was regularly tried and con-
victed of the charge and is now serving
out her sentence.—El Paso Herald.

EARLY DAY INCIDENT RECALLED

Tombstone Lynching On Washington's Birth- day--24 Years Ago

Twenty-four years ago tomorrow
Tombstone celebrated Washington's
Birthday by lynching Jack Heath, one
of the notorious Bisbee murderers.
Heath was awaiting sentence in the
county jail, when several hundred
mining men gathered at the court
house door and without any demon-
stration, quietly unlocked the cell
and took Heath to a nearby telegraph
pole and hung him.

That the fellow had an abundance
of nerve was manifest, as he took a
handkerchief from his pocket and tied
it over his eyes, seemingly not a bit
excited, and then asked the men who
were about, to take care and not
mutilate his body after death, by
shooting him, which request was
honored.

When everything was ready, the
young man quietly submitted his neck
to the rope, and a moment later his
body hung lifeless from the top of the
telegraph pole.

A few months previous three per-
sons were shot down in cold blood in
the streets of Bisbee, one woman and
two men. This followed close in the
wake of several such atrocities and the
citizens of the county concluded that
it was time to act.

On March 24th, the month follow-
ing the lynching of Heath, the re-
maining five of his companions in that
awful deed were hung on the
same gallows at Tombstone, and the
swift justice administered to these
evil doers put an end to murder in
Cochise county for a long time.

Deafness Cannot be Cured

by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the
Eustachian Tube. When this tube is
inflamed you have a rumbling sound
or imperfect hearing, and when it is
entirely closed, deafness is the result,
and unless the inflammation can be
taken out and this tube restored to its
normal condition, hearing will be de-
stroyed forever; nine cases out of ten
are caused by Catarrh, which is nothing
but an inflamed condition of the
mucous surface.

We will give One Hundred Dollars
for any case of Deafness (caused by
catarrh) that cannot be cured by
Hall's Catarrh Cure. Send for cir-
culars free.

Charles Nolan, an old man living
at Meridian, Maricopa county, took a
good sized drink of whisky the other
day and died a few hours later. The
body was buried without authority
by the officers and something of a
sensation was launched by the story
that the whisky had been intention-
ally poisoned. An investigation re-
vealed the fact that the old man died
from natural causes.
